Dear Jim:

your visit to Moscow.

I believe Paul Marks has filled you in - re the NASI/CISAC/BW meeting.

Here is some background, mostly  
on the BIA arms control part of the  
story. I will be visiting ACD/  
DAS tomorrow. There is, under-  
standably, a lot of institutional reac-  
tance to "buying" the Soviet's  
present account of SALT/CS '79.

I hope to call you in a few days.

Would you consider bringing with you to Moscow the VASL 10M reports
